**THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

**THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

### HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

### EXAMINER'S REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Board of Patent Appeals and Interferences, in the decision mailed on January 17, 2008, reversed the examiner's rejection of claim 41 as being indefinite under 35 U.S.C. 112, second paragraph, and of claims 32 through 44 as being anticipated by Nakamura under 35 U.S.C. 102(b). With regard to the latter, the Board stated that all of the functional limitations of the controller as recited in the claims must be given patentable weight, and that furthermore, Nakamura fails to specifically disclose, for example, that the controller calculates a predicted indoor temperature range and also fails to specifically disclose the existence of a predetermined indoor temperature range, and that it is furthermore unclear what type of instructions the user may input into the control system according to Nakamura. The examiner, upon reconsideration, furthermore notes that, if each and every functional limitation in the apparatus claims 32 through 44 is to be given full patentable weight as required, then Nakamura also fails to disclose or teach that the controller calculates a predicted outdoor temperature range as recited in base claim 32 of the instant application. Therefore, Nakamura fails to anticipate the instant invention as recited in claim 32 and all claims depending therefrom.

The Board goes on to invite the examiner to consider whether base claim 32 of the instant invention would be unpatentable under 35 U.S.C. 103(a) over Nakamura, alone or in combination with other prior art, "given that Nakamura discloses a step of calculating an estimated (predicted) heat load that may be consumed in the dwelling units" and that "the calculation of the heat load that may be consumed in the dwelling units requires knowing the temperature differential of the dwelling units, hence requires knowing the predicted outdoor and indoor temperatures in order to calculate the temperature differential" and that "such calculation would not have been challenging to one of ordinary skill in the art". Upon careful reconsideration of the above statements by the Board and an updated prior art search,

Art Unit: 3744

the examiner finds that base claim 32 and all claims depending therefrom are patentable over Nakamura alone or in combination with other prior art. In particular, base claim 32 requires that the controller “receives an outdoor air temperature and an indoor air temperature detected by the sensor system; stores the detected outdoor air temperature and the detected indoor air temperature detected by the sensor system; calculates a predicted indoor temperature range and a predicted outdoor temperature range *based on the stored outdoor air temperature and the stored indoor air temperature*; and, regulates operation of the air delivery system as a function of predicted indoor and outdoor air temperature ranges and a predetermined indoor air temperature range.” One skilled in the art would have found a single set of indoor and outdoor temperatures (either a measured/detected set or a calculated/predicted set) as sufficient basis for regulating the operation of the air delivery system in conjunction with a predetermined indoor temperature range. It would have appeared illogical and unnecessary (and thus also unobvious) to one skilled in the art at the time of invention to obtain and store a measured set of indoor and outdoor temperatures, then (despite the availability of the actual measured temperature data) to calculate a set of predicted/theoretical indoor and outdoor temperatures based on the stored/measured indoor and outdoor temperatures, and then to use the predicted/theoretical temperature ranges (instead of the actual measured temperatures) in order to control the operation of the air delivery system. Claims 32 through 51 are thus allowable over the closest prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

2. Claims 32 through 44 are allowable. The restriction requirement as set forth in the Office action mailed on January 26, 2005 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Thus, claims 45 through 51, directed to a

Art Unit: 3744

method of maintaining indoor air comfort and air quality with the inventive system are no longer withdrawn from consideration because the claims requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The examiner works a flexible work schedule but can normally be reached on most days during the work week between the hours of 10:30 a.m. and 6:30 p.m.
